**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Our small company has been using broadband access for the information we have been providing our clients. We had used major internet access from a large company in the San Jose CA area. That company demanded that we also pay for television broadcasts even though we had no need. In fact that company said that we had been having that service although we had no ways to receive video by cable since we have had our same data service and satellite coverage for video.

We were able to change to a company called Sonic which was more affordable and were able to give us the data we needed without having to subscribe to other data and programing services.

We are lucky that the Sonic vendor provides all of the information needs through the fiber connection that they provide.

Don't make us use vendors that we don't want and don't serve our personal and business needs.
